Established in 2008, Glass Express Midlands Ltd has been manufacturing and supplying quality glass products to the U.K. market for over 15 years.

Located in the heart of the West Midlands, we have a factory space of over 30,000 sq.ft

As well as providing a wide range of Glass types from all the major UK and European Manufacturers. We can also supply other specialist products such as Mirrors and Integrated Magnetic Blinds systems.

Sustainability is at the heart of what we do, which is why we use the latest glass optimisation software to ensure minimal glass wastage. In addition, all of our glass waste is returned to the manufacturers and used to make new glass, thus reducing our carbon footprint.
